

T2Express

Does T2Express generate t2 barcode print?

Most people use Corporate Internet filing by creating a .cor file, and use regular print as company's private hard copy. T2Express software can do Corporate Internet filing.

Since **v2013.1**, T2Express can also generate 2D barcode tax return print. Choose menu "**Start | Print Locally**", then choose the option of "**For CRA filing**", it will generate a pdf file with a few barcodes, which contain all the T2 return filing data and information. You can print this barcode pdf file using Adobe Acrobat, or Foxit Reader, mail it to CRA tax centre.
